The papers included in this volume were part of 39th IAHR World Congress (IAHR 2019) cited on the cover and title page. All papers follow a review process that consist of:

- Set up by the ISC of technical criteria for the Committee in charge of the revision.
- Submitted papers are sent to one or two experts in the field.
- Authors are asked to include the necessary amendments and follow the reviewers´ comments.
- Revision until the final approval by the ISC.

The review process follows the COPE Ethical Guidelines and Code of Conduct. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Proceedings of the 39th IAHR World Congress – IAHR 2022

Granada, Spain, 19 – 24 June 2022.

IAHR publications follow the Ethical Guidelines and Codes of Conduct provided by the Committee of Publication Ethics (COPE). A publication ethics and publication malpractice statement has been publicly available in the review process.

IAHR, founded in 1935, is a worldwide independent member-based organisation of engineers and water specialists working in fields related to the hydro-environmental sciences and their practical application. Activities range from river and maritime hydraulics to water resources development and eco-hydraulics, through to ice engineering, hydroinformatics, and hydraulic machinery.

IAHR consists of two offices: Madrid Office, Spain and Beijing Office, China.
